KETUA MENTERI SARAWAK

Message From

YB Datuk Dr. Jerip Susil
Assistant Minister for Public Health Sarawak

To the delegates from all the twenty-two Rotary Clubs in Pan Borneo and outside Borneo, I bid you a warm welcome to this 26th Pan Borneo Inter Clubs meet at Grand Margherita Hotel from 15th-17th November, 2013.

I understand that amongst your delegates, you have representatives from Singapore, Brunei Darussalam and Pakistan. It is good that people of different nationalities and diverse background can come together to promote the welfare of mankind, regardless of language, race, colour or creed.

I must congratulate Rotary Club of Kuching Central for accepting the challenge of organizing the Pan Borneo Inter Club Meet, and at the same time help to promote Kuching and Sarawak to the outside world.

It is indeed a unique event to have all the Rotary Clubs on the Island of Borneo to gather and meet once a year to exchange and share ideals and to do joint Projects for your respective areas. I would like to express my sincere thank and appreciation to the organizing committee from the Rotary Club of Kuching Central for selecting to do this joint community projects at the Sarawak General Hospital Heart Centre at Kota Samarahan. This project is meaningful as it provides a beautiful and tranquil atmosphere for both patients and their family members to relax and enjoy the greenery together while the patients recuperate at the hospital.

I wish all the delegates a fruitful and successful gathering, and am confident that you will all enjoy participating in the programmes organized for you by the Rotary Club of Kuching Central.

YB Datuk Dr. Jerip Susil
Assistant Minister for Public Health Sarawak

Message From

CHEW GHIM BOK
District Governor 2013-2014
Rotary International District 3310

It gives me great pleasure to pen a few words on the Pan Borneo Meet.

Started in 1984 almost 30 years ago, the Pan Borneo Meet is a fine example of intra-district cooperation. At that time, the Rotary clubs in Sarawak mainly from Kuching, Sibu and Miri gave birth to the idea. Later on in 1987, clubs in Sabah and Brunei joined in and continued the momentum.

When clubs get together in the spirit of cooperation, great things can happen.

Geographically, we are a very large district. Each region has its own unique challenges. It augurs well that clubs in each region see fit to address these challenges through mutual assistance.

I note that all the participating clubs in the Pan Borneo Meet contribute RM1,000.00 each which is used for a local community project. I commend you for that.

May I take this opportunity to express my thanks to the Rotary Club of Kuching Central for agreeing to play host this year.

From what I can gather, it promises to be a wonderful experience with varied programs of activities which include a Rotary Foundation Seminar to be attended by Regional Rotary Foundation Coordinator RRFC Muhammad Faiz Kidwai from Pakistan.

I know that many Rotarians from Singapore, Johor and Rotary District 3300 have also signed up for this event.

I am certain that all Rotarians attending will find the Pan Borneo Meet a unique opportunity not only to learn but to renew old friendship. It is a fine time to get together to discuss all the possibilities that we as Rotarians can contribute to society at large.

The hospitality of the Sarawakians is legendary. There will be great fellowship and bonding.

I wish you every success as you Engage Rotary, Change Lives.

Chew Ghim Bok
District Governor 2013-2014

Message From

Patrick Luk
President
Rotary Club of Kuching Central

Dear Fellow Rotarians

On Behalf of Rotarians and spouses of Rotary Club of Kuching Central, I bid you all a warm welcome to Kuching to attend the 26th Pan Borneo Inter Club meet from 15th November to 17th November 2013 at Grand Margherita Hotel Kuching.

Pan Borneo Inter Club meets is indeed most appropriate for all the clubs in Borneo. We have existed and survived for 26 years and judging by the responses we received, Pan Borneo Inter Club meets will continue to flourish. I thank you all most sincerely for your support.

My sincere appreciation to PP Sylvester Fong for accepting the responsibility of being the chairperson of this event despite his many other commitment. He has almost immediately assembled a team of high powered Rotarians from Rotary Club of Kuching Central as well as Rotarians from other clubs in Pan Borneo to start the organizing work.

Thank you Yang Berhormat Datuk Dr. Jerip for taking time off to be with us despite your heavy schedules and for arranging the sponsorship of the Fellowship cum Welcome Dinner at Grand Margherita Hotel on 15th November 2013 and also to witnessing the launching of the Pan Borneo Inter Club meet joint Landscape project at Sarawak General Hospital Heart Centre at Kota Samarahan on 17th November 2013.

I would also like to recognize the presence of all the past District Governors and to thank those Past District Governors who have consented to be our advisors for this event. I really appreciate their guidance and support in the Pan Borneo Meet.

To all Rotary spouses of Rotary Club of Kuching Central, my heartfelt thanks to all of you for coming in full strength to help us in the ladies programmes, in the registration process and other supporting activities. Your contribution to the Pan Borneo Meet is highly appreciated. Thank you.

To all the advertisers and well wishes, my sincere thanks and appreciation to you, for you have continued to give us your valuable support. We look forward to receive your continual support in all our future undertaking.

The Organizing Committee have gone through great length to organize this meet and I hope all participants will make use of this event to enjoy and savored the fellowship. I hope the "House of Friendship" set up by us will be able to lighten up your spirit and to enable you all to enhance fellowship and make new acquaintances.

Thank you.

Patrick Luk
President
Rotary Club of Kuching Central

Message From

PP Sylvester Fong
Organising Chairperson

Dear Fellow Rotarians

On behalf of the Organising Committee, and Members of the Rotary Club of Kuching Central, I am delighted to welcome all of you, Rotarians, Rotarian Spouses and guests to Kuching and to the 26th Pan Borneo Inter Club Meet. It is always a great pleasure to welcome our Rotary Families to Kuching.

Many thanks for your support by your attendance and participation at this event. We sincerely hope that, in addition to enjoying Rotary fellowship and activities, you will also find some time to appreciate the many attractions that Kuching and Sarawak has to offer.

For this event, we have invited a few distinguished speakers who have useful and interesting information on Non-Rotary related matters to share that can benefit you. However, as all Rotary events must offer some Rotary information, we have also incorporated an important topic on "Rotary Excellence" and an afternoon of Rotary Foundation Seminar organised by our District Rotary Foundation Committee. We hope that this 26th Pan Borneo Inter Club Meet will be a gathering of fun learning and entertainment, with lots of opportunities to enjoy fellowship, renewal of friendship and to meet acquaintances. After all, Rotary is about service through friendship.

In conjunction with this Meet, our Club will be carrying out a Rotary Pan Borneo Landscape and beautification Project in a prominent area at the Sarawak Heart Centre, Kota Samarahan. This project will complement the refurbishment works being implemented by our Club relating to the Rotary Anjung Kasih YKN (Yayasan Kebajikan Negara) Project to provide free accommodations for poor rural and outstation family members to stay while accompanying their loved ones who are undergoing medical care at the Sarawak General Hospital and Sarawak Heart Centre, Kota Samarahan. The project at the Sarawak General Hospital has been completed, and we intend to embark on the second project at the Sarawak Heart Centre.

This Rotary Pan Borneo Landscape Project will provide for, in an area outside the hospital wards, a tranquil and peaceful environment for the heart patient, where they can relax and to recuperate, and to enjoy the greenery together with their accompanying relatives. We hope this green lung will also offer the doctors and other healthcare providers a suitable environment to relax and recharge so that they can enhance their works in the provision of medical care to the patients. This Rotary Pan Borneo Project is also an excellent opportunity to enhance our Rotary Brand and to create better public awareness of the works we do in Rotary – in doing good in the world.

I take this opportunity to thank our Guest Of honour, our advisors and the Rotary dignitaries, distinguished speakers, sponsors and all Rotary supporters for helping to make this event a successful and memorable one.

I also wish to convey my profound gratitude to all members of the Organising Committee, their spouses and family members, and other friends of Rotary for their devotion and contributions over the last few months towards making this Meet a great success.

I hope you have a great time and pleasant stay in Kuching.

And, once again, many thanks for your participation in this 26th Pan Borneo Inter club Meet and cash contribution of RM1,000 from each participating Club towards the Rotary Pan Borneo Landscape Project. May God bless you all and our Rotary organization.

Yours in Rotary
PP Sylvester Fong

History of PAN BORNEO INTER-CLUB MEETING

The Pan Borneo Inter-Clubs Meet started in 1984 as an intercity meet for the Rotary Clubs in Kuching, Sibu and Miri in Sarawak, East Malaysia, which were then under Rotary International District 330 Group 11. As these clubs are geographically far apart and were not easily accessible, the concept of an intercity meet was proposed by the Rotary Club of Kuching, which was then under the leadership of President Kang Tee Yong, in response to RI President Carlos Canseco's theme of "Discover A New World Of Service",

The intercity meet would alleviate the difficulties being experienced by the three clubs coming together to exchange ideas and would also permit closer ties to be formed between them. Prior to this, the only time the clubs made contacts was when visiting Rotarians from one of the clubs attend the Rotary meetings of another club.

The objectives of the Pan Borneo Inter Club Meet are as follows:

- ▶ To provide opportunities for Rotarians in the Pan Borneo region to meet and have fellowship;
- ▶ To exchange ideas on all aspects of the Rotary movement;
- ▶ To identify a project that could be jointly undertaken by clubs in Brunei Darussalam, Sabah, Sarawak and Labuan F.T.;
- ▶ To provide an opportunity for Rotarians from other areas of RI District 3310 to meet Rotarians from Brunei Darussalam, Sabah, Sarawak and Labuan F. T.

The proposal was readily accepted by the Rotary Club of Sibu and Miri, which was under the leadership of President Clement Tiong and Kiu Chiong Ming respectively.

The first Pan Borneo Intercity Meet was held in Kuching on 8th December 1984. It was attended by the Presidents of all the three clubs and more than thirty Rotarians. In 1987, the Intercity Meet expanded to include Rotary Clubs from Sabah and Brunei to become the Pan Borneo Inter-Clubs Meet.

A tradition of the annual Pan Borneo Inter-Club Meet started then with a Pan Borneo project being carried out by the host club, funded by RM1,000.00 contribution from each participating club in the Pan Borneo.

Members of PAN-BORNEO COMMUNITY PROJECT COMMITTEE

Rtn. Michael Ho - Project Chairman

Rtn. CP Chua Tek Kheng - Deputy Chairman

Rtn. Ee Guan Teck & Kho Ping - Members

Hj. Mohamad Ismail & Hj. Gusto - Hospital In-charge

The Multi-Purpose Hall built in 1954

The Rotary Club of Miri hosted the first Pan Borneo Inter-Clubs Meet, and the first Pan Borneo project was the donation of medical and sports equipment to the Home for the Aged in Miri. The second Pan Borneo Inter-Clubs Meet was hosted by the Rotary Club of Bintulu but no Pan Borneo project carried out. It is now held annually and hosted in rotation by a Rotary Club in Borneo.

In the true spirit of Rotary, participation in the Pan Borneo Inter-Clubs Meet has not been only confined to Rotary Clubs from Borneo. At each Meet, Rotarians from our neighbours also join us in the spirit of fellowship, in peace and understanding, in furthering our guiding principle of Service Above Self.

Construction of a shed for ex-lepers to sell their farm products at the premises of Rajah Charles Brooke Hospital, Semonggok, Kuching

6th - Pan Borneo Rotary Inter-Club Meet

BRIEF HISTORY OF RAJAH CHARLES BROOKE MEMORIAL HOSPITAL

The Leprosy Institution (Leprosy Settlement as it was then called) was first located at 5th Mile, Rock Road, Kuching. It accommodated about 70 patients. In 1917, a fund in memory of the late Second Rajah Sir Charles Brooke, was set up and generously supported by the public. With the funds collected, it was possible to build a new Settlement at Satang Island. This was desirable as the patients were becoming a public nuisance by begging in the streets and involved in other activities such as gambling, etc.

In 1924, the buildings, houses, stores, dispensary and others were completed and the patients were moved to the new settlement. Unfortunately this site was found to be unsuitable because during the Landas season, supplies, communications, rations and other necessities were extremely difficult. This promoted a move to a more suitable sanctuary.

In October 1925, the patients were shifted back to the mainland to the present site at 13th Mile, Penrissen Road. This new place was found to be ideally suited for the location of the settlement. In 1926 more permanent buildings were constructed by the patients themselves as "Gorong Royong Project" from timber and other building materials brought from Satang Island. In the same year (1926) the Government took over full responsibility of the settlement, but it was still named as Rajah Charles Brooke Memorial Leprosy Settlement.

In 1940, permanent administrative block and hospital wards were built which could accommodate about 40 patients who needed proper medical and nursing care due to acute illness, ulcers and complications. Since then progressive expansion and improvements continued to take place until 1962. The present Institution consists of the following infrastructure:-

- Administrative Block
- 3 Wards buildings
- 11 Dormitory Barracks
- State Leprosy Control Centre Building complete with Computer and Record Rooms
- Outpatient Department building/Laboratory/Pharmacy/Kitchen/Laundry
- M.C.H. Clinic/Workshop/Canteen
- Mortuary
- Generator House
- Fire hose/pump house
- 7 Staff Quarters/Barracks
- 1 MO Bungalow
- Places of Worship: Chinese temple/SPG Churches/Surau
- Trainee Hostel
- Community Hall/Occupational Therapy Unit/Classroom
- Kindergarten

The settlement was renamed in 1962 and since then is known as Rajah Charles Brooke Memorial Hospital with a total of 62 acreage.

Since its establishment, R.C.B.M. Hospital is the sole Leprosarium providing leprosy care to patients not only from Sarawak, but also from Sabah, Brunei and Kalimantan Indonesia. As its peak occupation, the patient population was as many as 500 plus.

The Sarawak Leprosy Control Programme was launched in June 1974. Since then, with the decentralization and integration of leprosy care into the general medical services, the patient population has progressively declined over the years. This was because compulsory admission by law of a leprosy patient to R.C.B.M.

6th - Pan Borneo Rotary Inter-Club Meet

Hospital was abolished and R.C.B.M. Hospital was and is that of Referral Hospital for:

- (i) High infectious cases that cannot be effectively managed in their own environment.
- (ii) Patients with complications and reactions that cannot be managed at peripheral hospital level.
- (iii) Patients for intensive phase of Multiple Drugs Therapy Regime (MDT) (especially those coming from Ithaguan Kuching)
- (iv) Patients requiring special rehabilitative services.

Since the launching of Leprosy Control Programme until today a total of 1512 cases are being registered and only 590 are still receiving treatment while the rest were either cured or died of old age. It is estimated that there are about 2000 cases of leprosy in Sarawak.

Leprosy Treatment in Sarawak

Before 1940, leprosy was thought to be an incurable disease. The first medicine introduced for Leprosy was Chaulmogra oil injection extracted from the fruit of the Hydnocarpus trees. However it has been found to have no medical value. The greatest advance made in the treatment of leprosy came in 1949 with the discovery of Dapsone, a derivative of Sulphonamides and was first introduced to this Hospital in 1951, after which a number of leprosy patients were cured and discharged from the hospital, thus warrant unnecessary admission to leprosy. However in 1972 other medicines have since been discovered which are also effective for the treatment of leprosy, there being Lamprone and Rifampicin used as dual therapy with Dapsone.

In 1986 W.H.O. introduced the use of these three drugs i.e. Dapsone, Rifampicin & Lamprone (Ethionamide) and termed as Multiple Drug Therapy Regime, which are very effective and thus accepted as National Therapy. Now a total of 173 cases are on MDT, while 94 cases are on surveillance and 417 cases are either on Dual Therapy or Monotherapy.

Leprosy as a Disease

It is caused by *Mycobacterium Lepae*, a gram positive bacilli, invading only the skin and peripheral nerves. It is infectious and contracted through prolonged intimate contacts with the patient, but it is NOT HEREDITARY and its incubation period is about 2-7 years.

Natural body resistance of an individual will determine the severity of the disease, thus the early sign of the disease (Indeterminate) may just disappear if the body resistance is high.

According to W.H.O. definition there are only two types of leprosy namely Paucibacillary and Multibacillary, which can be recognised with the following signs and symptoms:-

- White/Red patch or patches over the skin
- Loss of sensation over the white patch(s)
- Not sweating over the white patch(s)
- Swollen and painful peripheral nerves
- Presence of *Mycobacterium Lepae* in skin smears or skin biopsy.

LEPROSY IS CURABLE AND TREATMENT IS FREE
EARLY DETECTION PREVENTS DEFORMITY

1992, Rotary Club of Kuching Central

Construction of a shed for ex-lepers to sell their farm products at the premises of Rajah Charles Brooke Hospital, Semonggok, Kuching

1993, Rotary Club of Sandakan

Construction of a chicken shed for the Sandakan Blind Society in Sungei Manila for rearing of chicken and eggs production for sale.

1994, Rotary Club of Miri

Tree Planting ceremony at the home of the aged

1996, Rotary Club of Kuching

Joint community project - Mass tree planting from Matang Suspension bridge stretching over 1 km to Kampung Gita. The other main project is a Joint community project where all clubs contributed medical, healthcare and recreation equipment.

1997, Rotary Club of Bandar Seri Begawan, Kuala Belait & Labuan

This joint project was undertaken by 3 Rotary Clubs together with Rotary Club of Singapore South for the delivery of a van from Singapore for the Special Home in Labuan

1999, Rotary Club of Bintulu

The project involved the building of a kindergarten for a longhouse community at Rumah Jepi, 17th mile Bintulu Miri Road. The construction work which was undertaken by the longhouse folks on a gotong-royong basis, was started in February 1999 and completed in April of same year.

2000, Rotary Club of Tawau Tanjung

Donation of six units of computers, printers and renovation of IT room for SJK (C) Phui Yuk School, at the rural village of Gudang Empat, Bombalai / Table.

2001, Rotary Club of Sibul

Building of a basketball court for Tong Ah Primary School, Selangau, situated 79km from Sibul Town. The residents are comprised of Chinese and Iban community.

2002, Rotary Club of Labuan

The original project was to raise funds to assist a local school, St. Anne Secondary School to build a science laboratory. However, due to the relocation of all science stream education to another school, the fund raised was used for upgrading of the school's wooden walls to brick walls.

2003, Rotary Club of Lahad Datu

Building of a library for Sekolah Kebangsaan Tanjung Paras at Pulau Sakkar which is 15 minutes by boat from Lahad Datu. The children who attend this school came from low income family who do not have access to computers, and are of low literacy level.

2005, Rotary Club of Brunei

The project was to built Pusat Ehsan which is a sheltered workshop to cater for psychologically impaired people who while not requiring institutionalization have the opportunity to pursue industrial therapy activity. The mission is to train, assist and care for these people with special needs to enable them achieve their full potential in society.

2006, Rotary Club of Bintulu

Building of a community park to support the government policy to provide open spaces and parks near populated areas for residents to partake in various forms of recreation. The club worked together with Bintulu Development Authority to develop a piece of Land designated as an open space in one of the residential areas in Bintulu.

2007, Rotary Club of Kuching Jaya

Building a pre-school cum resource centre to support pre-school education for low income families for children from nearby villages in Kota Samarahan division.

2008, Rotary Club of Labuan F.T.

Helping the initial set up of a new Home for underprivileged girls of school going age in Labuan. The 1st Fransiscan Sisters and First Step Sdn Bhd are working in partnership to manage the Home. The Home is situated a short distance from the St. Fransiscan Convent.

2009, Rotary Club of Miri

Donation of 150 units of fire extinguishers to 21 longhouses in two constituencies in the District of Miri. The presentation ceremony was held at the Rumah Genetan Ak Dangak at KM54, Miri/Bintulu Road on Sunday 15 March 2009. The officers from the Miri Fire Fighting Services will provide training to the longhouse dwellers on the proper use of the fire extinguishers.

2010, Rotary Club of Tawau Tanjung

Provision of a Children Playground Facilities and Recycle Centre for Orang-Orang Pekak Tawau (Aokam Benevolment Centre - For the Deaf and Disabled Children)

2011, Rotary Club of Sandakan North

Development of the Elopura Recreation Park with jogging tracks, staircases, pavilions, bargeque area and car parks to provide a comfortable and peaceful outdoor sports and recreation facilities for the Sandakan residents and visitors.

2012, Rotary Club of Penampang

Part financing for the Building fund of a Haemodialysis centre at Donggongon, Penampang known as Kinsabina-Rotary Haemodialysis Centre.

26th Pan Borneo Community Project

In 2012, the Rotary Club of Kuching Central staged a musical concert to raise funds for a project to refurbish an old and unused flats within the compound of the Sarawak General Hospital, and an old site building at the Sarawak Heart Centre, Kota Samarahan. This is a project of our Rotary Club and Yayasan Kebajikan Negara with the cooperation of the Sarawak General Hospital, and in collaboration with various governmental and corporate sponsors.

The fund were to be used to convert these old and unused buildings into hostels to provide free accommodation for the poor and underprivileged needy people from rural areas and those from outside Kuching to stay while attending to their loved ones who are undergoing medical treatment at the Sarawak General Hospital and the Sarawak Heart Centre. These poor parents or relatives need accommodations. Many of them cannot afford the accommodation while in Kuching and ended up sleeping in the wards alongside the patients or in the hallways.

The project at the Sarawak General Hospital has been completed and is ready for occupancy. And we are now intend to embark on the project at the Sarawak Heart Centre.

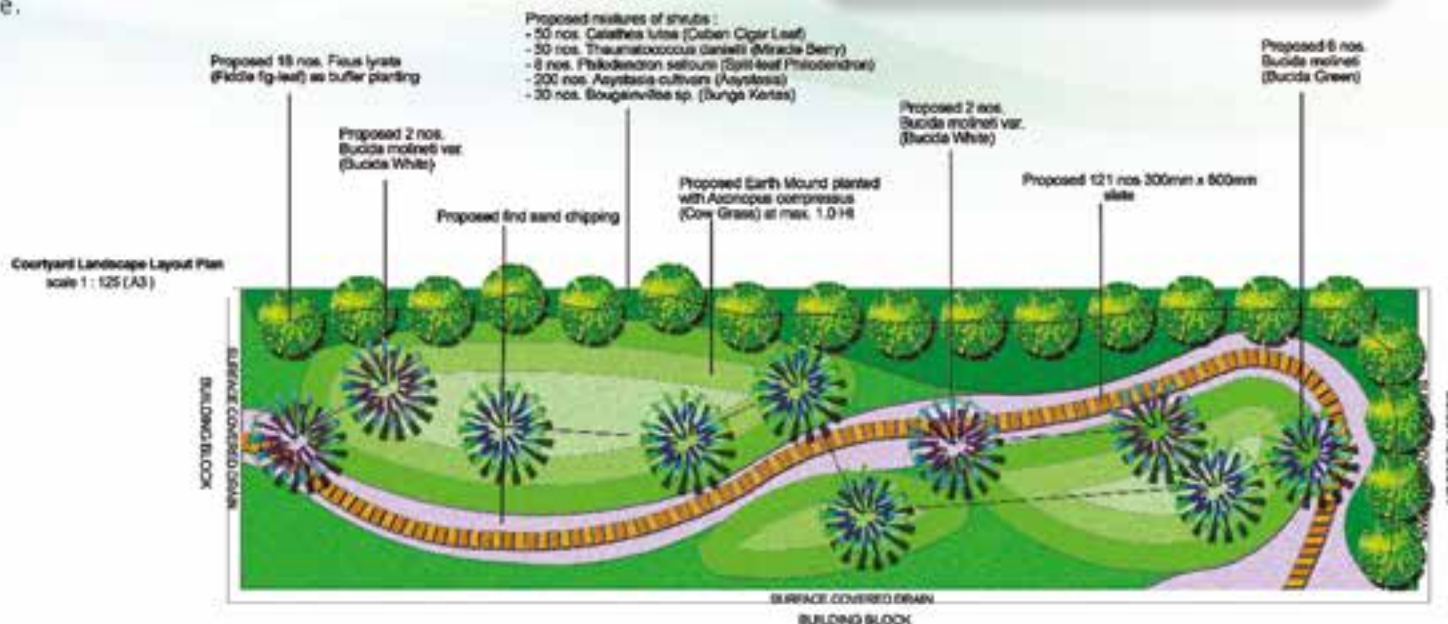

In conjunction with the Pan Borneo Inter Club Meet, our Club has decided to carry out a Rotary Landscape and Beautification Project in a prominent area at the Sarawak Heart Centre. This project will complement the refurbishment works that will be implemented to provide free accommodations for the poor at the Sarawak Heart Centre.

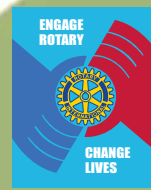

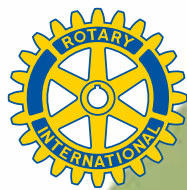

The site for the proposed landscaping works is presently an empty courtyard. The conversion of this area into a small landscaped park will meet the following objectives and provide the following benefits:

- ▶ Create a greater awareness and promotion of our green environment
- ▶ Provide for, in an area outside the hospital wards, a tranquil and peaceful environment for the heart patients, where they can relax and to recuperate, and to enjoy the greenery together with their accompanying relatives.
- ▶ Provide a green lung for the doctors and other healthcare providers, an environment to relax and recharge so that they can enhance their works in the provision of medical care to the patients
- ▶ As this is a high profile hospital frequently visited by Ministers, VIPs and other dignitaries, the project will enhance the Rotary Brand and create better public awareness of the works we do in Rotary- in doing good in the world.

PAST PRESIDENT DR SIVA ANANTHAN
PMP PHF PHD DBA LLB(HONS) FABE MSIDO ICP

Dr Siva Ananthan is the Founder and CEO of LTT Global Consultants, a corporate and legal advisory and project funding consultancy based in Kuala Lumpur and Singapore.

Dr Siva has had a diverse career, starting out in education as the founder and former owner of Malaysia's largest private law school – Advance Tertiary College (ATC). Dr Siva was actively involved in Malaysia's private education industry from 1985 until 2003. He served as the youngest ever President of the National Association of Private Educational Institutions (NAPEI) from 1990 – 2000 and was responsible for reshaping and redefining the role of private colleges as responsible corporate citizens during their infant stages of development. For his efforts he was recognized by the then Minister of Education, Dato' Seri Najib Tun Razak (who is now the Prime Minister of Malaysia) with an Award for Outstanding Contribution to Private Education in 2001. He was also awarded the Royal Title of Order of Paduka Mahkota Perak (P.M.P.) by His Royal Highness Sultan Azlan Shah of Perak, Malaysia.

During this time Dr Siva also served as Malaysia's first Director to the Pan Pacific Association of Private Education (PAPE) and was a Governing Council Member of the ASEAN Law Association (ALA).

An active Rotarian, Dr Siva is a Past President and a Charter Member of the Rotary Club of Greater Kuala Lumpur. He has been a Rotarian since 1990. During this time he has served in District 3300 in many capacities including Assistant Governor, Deputy District Trainer, Chairman of the Awards Committee, Chairman of the MDR Committee, Chairman of the Literacy Task Force and Organising Chair for the Visits of two Rotary International Presidents. He has also been a member of the District Training Team and GDL for many years.

Dr Siva was also a Trainer at the 2011 Bali Rotary Institute's District Trainer Training Seminar and the 2012 Selangor Rotary Institute's Governors Elect Training Seminar. Dr Siva was also the keynote speaker at the first Multi District PETS in the Philippines comprising of 10 Districts. He has also spoken at numerous Assemblies and Conferences in many Districts around the Rotary world.

Dr Siva is a Paul Harris Fellow and Major Donor (Level 2) of The Rotary Foundation.

Dr Siva is currently the Chair of the District Strategic Action Plan Committee and Rotary Leadership Institute Committee of D3300.

Dr Siva is well known for his highly thought provoking and entertaining presentations. Dr Siva truly believes that Rotary provides the impetus for action to make the world a better place. Today he will inspire you with his presentation – ROTARY EXCELLENCE.

ABOUT YAYASAN RAKYAT 1MALAYSIA

Yayasan Rakyat 1Malaysia (the "Foundation"), which was incorporated in January 2013, is a charitable foundation dedicated towards benefitting Malaysians from all walks of life in line with the principles of 1Malaysia.

The Foundation's activities are geared towards engaging and helping Malaysians, particularly the less fortunate and those in need, and to equip them with building blocks to achieve a better future. Towards this end, the Foundation focuses on three areas – Improving quality of life, Education and Sports.

The Foundation is chaired by YAB Dato' Sri Mohd Najib bin Tun Haji Abdul Razak, the Prime Minister of Malaysia.

UNG SU LING

Su Ling is the CEO of Yayasan Rakyat 1Malaysia. A lawyer by training, she has worked primarily in the financial services industry. Prior to joining Yayasan Rakyat 1Malaysia, she was head of Corporate Responsibility at CIMB Group. Over the past five years, Su Ling has worked alongside Rotary Clubs of Rotary International Districts 3310 and 3300 in community projects throughout Malaysia.

NBO Leadership Sdn Bhd, a Partner of NBO Group, is one of Malaysia's leading providers of Consulting, Learning & Development Services which include Consulting & Facilitation, Diagnostics & Assessment Tools and Learning & Development.

The NBO Group has been conducting leadership development, communication and interpersonal skills training across Asia since 1988. It is one of Asia's most respected communication consulting firms, with offices in Hong Kong, Singapore, the United States and Partners in Europe, Malaysia, Thailand, Indonesia and South Africa.

Each NBO Group program is designed to fit the specific learning objectives of the Clients, who include many of the Fortune 500 companies. With worldwide experience, the programs and products are tailored for multicultural environments.

The NBO Group employs leading edge tools in each customized engagement including Thomas PPA, Thomas TST, 16PF and the NBO Group's unique online 360° Leadership Survey. NBO's Executive Coaches add value to each personalized coaching experience by linking individual personality and behavior to desired performance objectives.

NBO's Trainers emphasis is on the development of practical competencies, not stereotyped techniques. This approach delivers greater impact with a training session, a lasting application by the participant, and a return on investment for the organization.

We also work with other partners to customize training and consulting programs. For example, we are partners with Thomas International in using their Thomas DISC assessment tools.

Clients include GLC's, MNC's and local Conglomerates/SMI's.

ZAINAL ARIFIN KHALID

Zainal Arifin Khalid has nearly 30 years' career experience in education, fast moving consumer goods, information technology, management consulting and leadership development.

He started his career in MARA in 1981 where he lectured initially in Mathematics at MRSM Kulim and subsequently lectured in Computer Science at MARA's EDP School in Kuala Lumpur. He joined Malaysian Tobacco Company plc in 1983 as Systems Analyst and prior to his departure in 1989 he was the Marketing Information Manager. Subsequently he joined Nestle Malaysia plc in 1990 as Management Information Systems Manager before returning to Malaysian Tobacco Company plc in 1991 as Management Services Manager. In 1995 he became Head of IT, South East Asia for British American Tobacco plc. He was instrumental in setting up the first shared service IT centre for BAT in Asia Pacific then and became its first Head in 1997. The shared services centre was later renamed to BAT Group Service Delivery.

Zainal Arifin Khalid undertook his first general management assignment in 1998 when he became Country Manager for British American Tobacco Thailand. In 2000, he returned to British American Tobacco Malaysia plc as Information Technology Director and became a member of their Top Team. In addition he had leadership responsibility for BAT's Group Service Delivery Kuala Lumpur which by then was one of three global shared services centres for BAT. Since then he held various senior leadership positions for BAT in Malaysia, the Asia Pacific region and the BAT Group globally.

Zainal Arifin Khalid left BAT Malaysia in 2008. In 2009 he was appointed as Director for NBO Leadership Sdn Bhd, a strategic transformation and leadership development company. His areas of interest include information technology as a value enabler, strategy and leadership development & facilitation and coaching. He holds a BA degree from California State University Chico and a MS degree from the University of Kentucky.

PROF DR SIM KUI-HIAN

MBBS(Hons)(Monash), FRACP, FACC, FSCANZ, FESC, FAHA, FCAPSC, FSCAI, FAPSIC, FAMM, FNHAM

Prof Sim graduated from Monash University and completed his cardiology fellowship at Monash Medical Centre, Melbourne, Australia. Preventive Blindness Project

Preventative Blindness has been one of the Rotary International's principal area of focus, which has also been adopted by our Rotary Club, Rotary Club of Kuching Central, as one of our club's significant project. This project entails the provision of free cataract operations for low-income sector of our communities in various parts of Sarawak.

This project has been carried out on a regular basis together with our partners, namely doctors in the Sarawak Medical Services and private hospitals in Kuching, and our main financial sponsor, CIMB Community Link, the corporate social responsibility arm of the CIMB Bank.

Our Club's first avoidable blindness project was carried out in Kapit from 5 to 8 December 2008, where free cataract operations were successfully performed on 10 out of the 38 patients who have been identified with matured cataracts during the eye-screening project conducted on 17 to 18 November 2007. The others could not be operated on due to various reasons including co-existing medical conditions, self withdrawal and failure to establish contact due to remote place of residence.

In January 2010, our Club brought our avoidable blindness project to the remote Bario highlands. A total of 410 inhabitants in Bario had their eyes and health checked by a team of medical professionals. Of the 410 people, 73% are students of primary and secondary schools, while the balance comprised of the adult members of the community. The project was financed by our club members. Sponsorship was provided by MASWings which gave a 50% discount on the return airfares for the Bario-Miri sector; Zeiss sponsored the lenses for the spectacles: Association of Optometrist Malaysia provided the spectacle frames and Rotary Club of Miri sponsored 20 pairs of reading glasses.

In October 2010, the Rotary Club of Kuching Central launched a Rotary Publicity on Wheels. Under this program, our Club sponsored the publicity on 2 delivery vans owned by Khong Guan Biscuit Factory. As these vans make its way to remote parts of Sarawak delivering Khong Guan biscuits, the graphics on the van convey the message that free cataracts operations are provided for the needy by the Rotary Club of Kuching Central.

Rotary Brings Vision to Pulau Beruit

In a concerted collaboration between CIMB Foundation, the Department of Health Sarawak, the Ophthalmology Department of Sarawak General Hospital and the Rotary Club of Kuching Central, 29 cataract patients from the low income group living in Serian, Sri Aman, Betong and Lundu were transported to the eye Clinic at the Sarawak General Hospital where they underwent cataract operations. All the 29 cataract operations were successfully carried out over 2 days on 10 and 11 December 2010. All the patients were discharged on 12 December after post-surgical examinations. The Project was fully sponsored by CIMB Foundation.

From 9 to 12 June 2011, free cataract and pterygium operations were carried out in the Daro Hospital for 43 low-income individuals who lived in Pulau Beruit. These patients, each accompanied by their next-of-kin, were transported by chartered express boat to be admitted into the Daro Hospital. All the operations were successful, and the patients were transported back home to Pulau Beruit after post operation review.

The Project was financed by CIMB Foundation and other sponsors, such as Harwood Timber Sdn Bhd and Normah Medical Foundation and Charitable Trust Board as well as The Crocodile Foundation of Singapore.

On 11 August 2012, our Club, with the sponsorship of CIMB Foundation, donated 100 cataract lenses to the Sibul Hospital. These lenses are provided for free to needy patients from Sibul, Dalat, Kapit, and other nearby villages, who requires cataract operations.

We were delighted to be given the opportunity to participate in the launch of 1 Malaysia Mobile Ophthalmic Bus Service in Sarawak. This Bus, the second to be launched in Malaysia, will travel to remote parts of Sarawak which are not serviced with medical facilities to carry out such ophthalmic services. Our Club, through the sponsorship of CIMB Foundation, has committed to this project by donating one unit of portable operating table and one unit of A-Scan machine to be used in this service activity.

SkyWay™ VSAT

Maxis Multiservice VSAT Platform

Nowhere is out of reach

Maxis VSAT Services. Flexible solutions to connect your business anywhere.

With the globalisation of our economy, making the right business decisions in a timely fashion based on accurate information is increasingly vital to sustain business. As such, the necessity for a reliable communications infrastructure to support businesses across all industries has become a common business practice.

Maxis SkyWay™ VSAT Services is a satellite-based multi-service platform that offers businesses highly flexible and reliable communications solutions, in both urban and rural areas. VSATs will change the way you do business, as geographical barriers are eliminated and remote or distant businesses and communities are brought even closer.

You no longer need to be dependent on terrestrial infrastructure as you now have the freedom and flexibility to establish your own private communications network, independent of any public telecommunications infrastructure.

WHAT IS SKYWAY VSAT SERVICES?

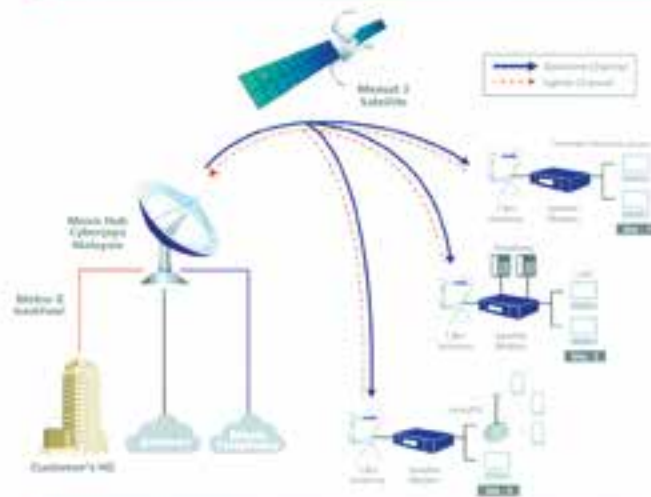

SkyWay is a comprehensive VSAT service that provides interactive Broadband IP (Internet and Intranet) access. It provides superior data and voice services for businesses requiring connectivity between their Headquarters and branch offices. SkyWay operates on the C-Band frequency, making it a robust service that is not affected by adverse weather conditions.

SkyWay supports customers' requirements across industries, be it the oil and gas sector, agriculture, financial or even the public sector. It caters to customers with high bandwidth requirements whilst also supporting customers with transactional applications that require lesser bandwidth. Customers in both urban and remote/rural areas will find SkyWay to be an ideal way of getting reliable communications.

Key features of SkyWay VSAT

- Multiservice solution with full capabilities
- Uses a 12.5W C-Band antenna
- Able to provide standstill and roaming links
- Supports Broadband data, voice and video
- Supports high bandwidth links - upload up to 4 Mbps & download up to 10 Mbps per VSAT
- Encrypted full compression on Internet protocol - ideal for secure data transmission or sensitive device
- Multiple users per VSAT - multiple users can share a single VSAT
- Supports direct VSAT to VSAT communication (mesh configuration)
- Supports video full compression - Customers can view & provide content from their HQ without having to go through the main VSAT Hub
- Able to support H323 requirements

SKYWAY NETWORK CONFIGURATION

Typical Applications supported

- High-speed Broadband internet/intranet access
- Telemetry
- Multimedia video & audio
- Video conferencing
- E-commerce trading
- Streaming & archival applications
- Credit card authorisation
- POS transactions
- Reservation systems
- Inventory Management
- CRM (Customer Relationship Management)
