

ROTARY DISTRICT 3310 NEWSLETTER

3rd ISSUE 2018-19

MESSAGE FROM DISTRICT GOVERNOR

Welcome to the third issue of our District Newsletter for RY2018-19. I noted that most Clubs are already actively involved in service projects in one form or the other. A number of projects have been completed while others are being implemented. Please keep up the good work to serve the communities around you.

As we approach the final quarter of RY 2018-19, I urge all incumbent Club Presidents to do a stock taking of your activities vis-a-vis the objectives you have submitted via Club Central. There are only 90 days left before you complete your term of office.

End your year with achievements that all of us can be proud of. So inspire your members to come together to finish the projects and activities that have been scheduled for completion in this Rotary year. I encourage all of you to work together with your Assistant Governors to attain the Presidential Citation.

At the Club level, do continue to promote fellowship and bonding. Invite potential members to your club meeting to grow your membership. For those clubs who have inducted new members, do get the new members quickly involved in your club's programme. A Club that is united, with active programmes and supported by dedicated members will be in a better position to undertake projects that will have a more significant impact on the communities that we serve.

In concluding, I like to thank all of you for making Rotary Day a success. I am impressed and deeply touched by the number of events that took place. You have worked hard and organised well to ensure that Rotary Day is successful. Rotary Day has demonstrated that Rotarians across various geographical regions in our District can work together among ourselves. It also proved that we can collaborate with external entities to render service to our communities and thereby raise the public image of Rotary. I hope the events that took place will inspire all our Rotarians to continue to engage our communities actively.

With best wishes

Henry Tan Kok Hiang

District Governor RY2018-19

1. ROTARY DAY

As part of a move to increase membership in Rotary and to highlight the work of the Rotary movement, Rotary International's President, Barry Rassin has earlier in his term of office encouraged clubs and districts to organize informal community events called Rotary Day/s. Rassin said *"Rotary Days events will offer you the chance to have an impact in your community, build long-term partnerships, increase interest in membership, and improve Rotary's image"*. In response, District 3310 has designated 23 Feb 2019 as Rotary Day. Many clubs followed up on DG Henry's call to come up with programmes for Rotary Day. They worked hard to help translate Rassin's wish into concrete actions. On 20 Feb 2019, we have arranged with the leading newspaper in Singapore to give publicity to this event.

In Singapore, Rotary Day was publicised in our local media (English and Chinese) to create greater public awareness of Rotary. There were many events held and these include Zumba mass exercise, health talk of stroke, comedy, magic and puppet show. MP Denise Phua, Mayor of Central Singapore District was invited to grace the occasion and to give a speech.

The Guide to Daily Living

Before doing the things we want to do, consider first, the precept of the Guide.

Ask ourselves 4 questions and act upon them:

FIRST: Have I spent some time in self-examination?

SECOND: Have I spent quality time with my family?

THIRD: Have I given the best to my work?

FOURTH: Have I given some time to someone near and far?

The **first question** prompts us to evaluate ourselves and our ability to serve.

The **second question** reinforces our commitment to the family - our "Intimate Community of Life and Love".

The **third question** requests us to commit ourselves to work with excellence and practice high ethical standards.

The **fourth question** reminds us of our duty to Lend a Hand, rendering compassionate service and world peace.

The Guide, in fact encompasses the 4 parts of the Object of Rotary.
